

Autumn 2021
Volume 1

We are excited to announce some big changes at Montana Dental Lab!

Our New Laboratory

2021 has been another year of change, and we at Montana Dental are changing with it. We are please to announce our new location at 1423 Wyoming Avenue. Come by and visit our new state-of-the-art laboratory!!

We are A family-owned company with deep Montana roots. Craig and Alicia May, husband and wife co-owners, dedicated to upholding the finest in dental laboratory standards.

We are proud to offer a full-service dental laboratory that services Dental offices Nation wide while maintaining home town customer service. We offer everything from fixed & removable to Ortho and digital work loads. We are here to partner with you!

**Keep up on all the happenings
at Montana Dental Lab!**

New Building, Same Montana Service

We are please to announce our recent acquisition of Western Dental Arts and our new laboratory location at 1423 Wyoming Ave in Billings! With a new facility, and our large and highly-trained staff, there has never been a better time to send us cases of any kind!

Meet some of our incredible staff:

Welcome Troy and Marla!

Crown & Bridge Supervisor, HEAD CERAMIST

Let me introduce **TROY OLSON**. Troy Olson has been with Montana Dental Laboratory since January of 2021 and joined MDL as the Head Ceramist/Manager of Crown & Bridge. Troy brings with him 30 years of dental technician experience. Prior to MDL Troy was a cosmetic ceramist at Precision Dental Design and the manager at Ballard Dental Laboratories. Part of Troy's experience came as an instructor of technicians at Ameritech College. Troy is a graduate of Archibald Associates Laboratory and School and the University of Phoenix where he majored in Business Management. He is an active member of the American Academy of Cosmetic Dentistry. When he is not at MDL you can find him spending time with his family - his wife, son, four daughters, two son-in-laws, and grandchildren.

Digital Dentures/3D Printing:

Meet **CHAD FENTON**! He comes to us with experience in Medical Sales as well as a degree in business finance. He is one of the smart ones! Chad has been developing our Digital Denture Department as well as all of our 3D Printing. His experience in 3Shape and InLab is next to none. Utilize him for any digital questions you may have. When Chad is not at MDL you will find him camping and hunting with his family. He fits in perfectly here in Montana. We are happy to have him!

Thanks for
being part
of the
team Chad!

New Ortho Department

With a new building comes new frontiers, and we are very pleased to welcome **TRAVIS ELWOOD** as head of our newly formed Ortho Department. Besides his skill at riding an antique Penny Farthing bicycles, Travis also brings experience and an advanced skillset to our growing digital services. We are proud to have him on our team!

Welcome Travis and Emily!

FUN FACT:

Between the 1500-1700s people who had missing teeth would pay for someone else's teeth or steal them from the dead. As you can probably guess, these 'implants' didn't work very well.
